

FloPro™

A RANGE
OF LONG-LASTING
AND EFFICIENT PUMPS.

1 BUILT TO LAST

FloPro™ pumps are designed with **corrosion-resistant materials**. The body of the pump is made of very thick glass-reinforced polypropylene, which makes it **long-lasting and silent**.

2 HIGH PERFORMANCE

Equipped with **highly energy-efficient asynchronous motors**, the range is available in 9 models (from 0.5 to 2.0 HP) to meet the needs of most pools.

BENEFITS OF THE FloPro™ PLATFORM

Easy to install, even as a replacement

Thanks to the "Easy Retrofit" system, pumps can be installed without changing the piping. So, they are compatible with most existing installations.

Easy maintenance

A pre-filter basket that is up to 117% larger means more debris can be captured before the filter needs to be cleaned.

Motor type	Asynchronous motor, class F insulation, stainless steel shaft and bearings								
Speed	2,850 RPM								
Usage	Fresh water and salt water up to 6 g/L (6,000 ppm)								
Pre-filter basket volume	2.6 L								

BENEFITS

- 63/50 mm union connectors provided
- 2 optional pump bases for easy installation
- Compatible with salt water

STANDARD FEATURES

63/50 mm
union tailpieces

ACCESSORIES

Thin pump base

Thick pump base

PERFORMANCE GRAPHS

FOR WHICH TYPE OF POOLS?

1 ALL TYPES OF SWIMMING POOL

2 POOLS UP TO 150 M³
