

Mr Pure Inverter
Salt Chlorinator

Mr Pure Inverter Salt Chlorinator

Introducing the first ORP Salt chlorinator with Inver Turbo technology which self-adapts to different situations and delivers 0-130% automated chlorine production. Inver Turbo mode saves more time whether during initial disinfection or after having a party. It can also operate at a low salt level of 1g/L and keep crystal pure water without worries about additional salt maintenance for up to 180 days.

This latest water treatment innovation adopts an advanced PID algorithm for accurate control of chlorine production and pH regulation. It transforms your pool into an oasis with baby-grade water that's natural and healthy. No more worries about red eyes, dry hair, or rough skin – just refreshing water that's perfect for anyone, especially those with sensitive skin.

Mr Pure releases you from any concerns about swimming in saltwater or forgetting to add salt in time, thanks to Inver Turbo technology. It is even able to operate even at low salt levels of 1g/L, benefiting both swimmers and pool systems.

- ORP
- Self-cleaning
- Fully proportionable
- Titanium electrodes
- PH control

Mr Pure Inverter Salt Chlorinator

Model	14 g/h	22 g/h	30 g/h	34 g/h
Production at 100%(g/h, 3000PPM)	11.0	17.0	23.0	26.0
Production at 130%(g/h, 3000PPM)	14.0	22.0	30.0	34.0
Production at 130%(g/h, 1000PPM)	9.0	14.0	18.0	21.0
Salt Level (g/L)	1 ~ 5 (recommended 3g/L)			
Advised pool volume (m3) (at 3000PPM)	20-50	35-90	40-110	50-130
Advised water flux (m³/h)	5 ~ 20			
Power Supply	220~240V 50/60Hz			
Power Consumption (W)	80	115	135	140
Operating Temperature (°C)	-5 ~ 42 °C			
Salinity Test	Salt Level Detection (accuracy ±500PPM)			
Self-cleaning	Default 4h 3 options in total (2/4/6h)			
Dosing Pump	Built-in/Integrated			
Communications	MODBUS RS485 / Wi-Fi / Dry Contact			
Control Unit Dimension LxWxH (mm)	202 x 270 x 75			
Water connection (mm)	63mm & 2" (included)			
Electrodes	10 titanium plates			
Water Temperature	10 ~ 40 °C			
Maximum Pressure	4.5 Bar			
Cell Life(h)	12000			

Up to 180 days salt free

Thanks to the InverTurbo Tech, say goodbye to the hassle of adding salt. With no additional salt maintenance needed up to 180 days, you can enjoy a totally hands-free pool experience all season long. You can limit your salt dosing to 3 parts per million meaning the Mr Pure is pool friendly. (Maximum salt dosing should be reduced to below 3g/L for Stainless steel).

“ Fully automatic proportional dosing. ”

Mr Pure Inverter Salt Chlorinator

Innovative OneCell

Package includes:

- Electrolytic cell
- Check valve/Acid injector
- Acid tube
- Water unions
- Probe mounting assembly
- pH+ Temp probe
- ORP probe
- Control unit
- Flow switch
- Spare parts (plugs, screws, tape, zip, ties, hose, etc.)
- Cell cable

Mr Pure Inverter Salt Chlorinator

Features

- The on-screen display lets you know when the water is perfect for swimming, so there are no guessing games or dip tests necessary. The simple touch screen which is only 75mm thick shows visual water quality, so you know when the swimming conditions are just right.
- Featuring Turbo boost for when you want to speed up the process so you can swim right away
- The system only produces chlorine when required, saving costs and energy in running your pool and keeping it sanitised
- Supplied with PH and ORP Probes as standard
- System is a fully automatic proportional dosing system.

Simple touch screen interface

Easy plate replacement

Self-cleaning cell

Wintering protection

Built-in pH regulator

Model	Production at 130% (g/h, 3000PPM)	
MPS14	11.0	
MPS22	22.0	
MPS30	30.0	
MPS34	34.0	

Controlled by app
